Reconstituted
Tobacco for

Wrapper & Binder

for Cigar and
Cigarette Making

Imagine that Reconstituted Tobacco can design your cigar and cigarette business future:

Offering more benefits to the industry.

Design Your Future with Reconstituted Tobacco

With its real natural characteristics of tobacco leaf, Reconstituted Tobacco is an ideal substitution of natural tobacco leaf for binder and wrapper in cigar as well as cigarette manufacturing:

suitable for your high-speed production machines, and perfectly matched with the existing tobacco filler.

Beyond your Expectation

Pura Group's advanced processing of tobacco leaf creates the exact characteristics, flavour, and aroma of the natural tobacco.

Our formulations for each wrappers and binders meet the standard qualification of tobacco content for cigar and cigarette worldwide to increase market share.

Our product has **the best machine runnability**, giving you the assurance to bring out an innovative product which is beyond your expectation.
